EXPERIENCES

Internship in an association for people with disabilities

Adapei 26

📅 2022

Help with sports adapted to the disability.

Internship in a luxury winter clothing boutique

Fusalp

📅 Feb 2020

- Learn how to run a store, how to behave as a salesperson and how to make contact with customers
- Observation of numerous sales

PROJECTS

Personal Cybersecurity Website

Self-initiated Project

📅 2025 – Present   📍 jamyvetter.net

- Designed and developed a personal website focused on cybersecurity topics.
- Built using the Hugo static site generator with a customized theme.
- Version-controlled via GitHub and continuously deployed using Cloudflare Pages.

Smart Greenhouse Project with Arduino

Grenoble INP Esisar

📅 June 2025

- Designed and developed an energy-autonomous smart greenhouse during first-year engineering studies, in collaboration with a teammate.
- Implemented a control system using an Arduino to manage sensors (temperature, humidity, light) and actuators (fans, irrigation).
- Powered the system via solar panels to ensure energy independence.
- Drafted technical specifications and developed embedded software for automated climate regulation.

EDUCATION

Integrated Prep student

Grenoble INP Esisar

📅 Sept 2024

Baccalauréat général, Mathematics, Physics-Chemistry

Lycée privé Saint-Maurice NDC

📅 Sept 2019 – Jul 2022

PERSONAL PROFILE

Engineering student in the integrated preparatory program at ESISAR (Grenoble INP – UGA), with a strong interest in networking technologies and cybersecurity.
Currently developing technical skills in computer networks, programming (C, Python), and electronics (simulation, FPGA, microcontrollers).
Already involved in several academic projects, I enjoy working in demanding technical environments where rigor and curiosity are key.

CERTIFICATIONS

🌐 **TOEIC (2022) – Score : 915/990**
Official certification demonstrating a B2 level in English comprehension and expression

---

🔒 **Cybersecurity Certification – Grenoble INP Esisar**
Introduction to cybersecurity fundamentals, defense methods, and digital risk management

SKILLS

Problem Solver   Analytical Thinking

Autonomous & Reliable

Team Collaboration

Cybersecurity Awareness   Linux

Systems Architecture   Tech Curiosity
